# **Featured Blog Post on Main Page**

The layout and sizing etc of the image still isn't right. Can you please ensure that this area looks the same as in the original PHP file supplied.

Currently (http://tweetperth.com.au/new/wordpress/)

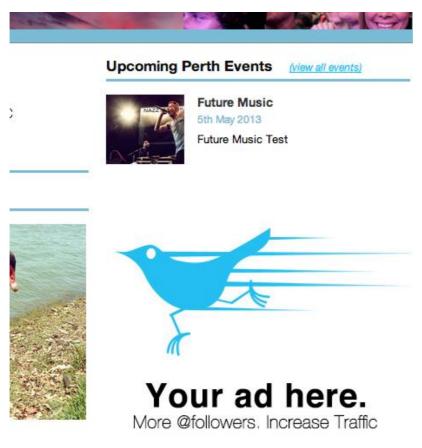

Needs to look like (http://tweetperth.com.au/new/index2.php

### Links and information for Latest Events

Can you please ensure that the latest events with the required information and link back to the individual links page is created within the sidebar. At the moment the section doesn't pull the right information or link back to the individual event. Information to be pulled from the event to showcase in the sidebar is title, date and excerpt.

Screenshot (http://tweetperth.com.au/new/wordpress/)

# **Tweet Perth Trending**

Can you please build this section that will showcase the 3 most visited posts, events, competitions and or pages within the last 24hours. Ie So whatever 3 parts of the site have been visited the most.

Tweet Perth Trending (view all post)

**Latest Perth Tweets** 

### **Tweet Perth Trending**

Can you please build the single win page to be the same as originally supplied in PHP. The win page should be built with same backend functionality as events allowing user to easily add details in the custom areas.

Custom input fields required

<u>Feature Image:</u> This will be the image that is shown on the main win page (ie <a href="http://tweetperth.com.au/new/win.php">http://tweetperth.com.au/new/win.php</a>) and throughout the whole site

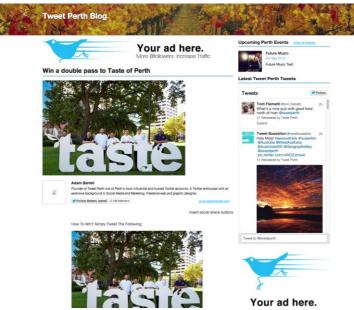

<u>Competition Image:</u> This will be the image that is shown at the top of the left column single win page.

<u>Competition Details</u>: Details that fall under the competition image (Date, Location, Time and Audience). If any details aren't put in then information for that particular field doesn't show.

<u>Competition Links:</u> Fields to add official competition links for website, Facebook and Twitter as has been done on the events page

Also I wish to be able to have a section which allows me to change the banner (the image of leaves at top of the page) of each competition same as seen in the events section.

### #PerthWin - Tweet Perth Win Page

#### Your ad here. More @followers. Increase Traffic

### Win a Double Pass to Summadayze

Date: 6th January 2013 Location: Patersons Stadium, Subiaco Time: 10am to 10pm Audience: 18+ ID Requi

How To Win? Simply Tweet The Following;

In a move that's sure to make your Summa sizzle, we can now officially confirm that the rumors are true - Mark Ronson will be bringing very special guest Andrew Wyatt, lead singer of Milke Snow, on the road with him this year. Last in the country with Milke Snow for Splendour In The Grass, and having collaborated with Ronsor on the smash hit song 'Somebody To Love Me', we can't wait to see what they have in store for us on the festival stage!

British based 'it' band Sam & The Womp will be making their Australian festival debut at this year's Summadayze. Their smash hit, UK #1 single 'Bom Bom' has quite literally taken the world by storm! Out here recently on a whirwind promo tour that included a performance on The X-Factor, they'll be heading back to our shores with a full band in tow.

#### **Latest Tweet Perth Tweets**

## **Standard Page**

Can you please create the standard page template as seen here - <a href="http://tweetperth.com.au/new/subpage.php">http://tweetperth.com.au/new/subpage.php</a>

Can you please ensure that there is a section where I can add the custom Twitter feed code as you have done with the events pages.

Also as seen within the events page I would also like the ability to change the page banner image on each page.

The feature image of the page will only be used if the page is to show up in the Tweet Perth Trending section of the website and if users share the page on Facebook/Twitter

CSS has also been updated withint the NEW folder

### **Blog Author**

In the backend of wordpress can you add a section where Authors can fill out their bios and then when creating a blog post authors can be selected, in turn showcasing their bio on that blog post.

Details that are required for the Author bio are

Image: Which will be resized to  $90 \times 90$  (Also please fix image as currently isn't working)

Name: Authors name (Can this link to page of all authors post... this page will be same format of the main blog page)

Author: Bio

Author Twitter Account: Myself or the author will paste the Twitter follow button code in this area

Author Website: This link is to also then open in a new page

The inaugural three-day event represents the first food festival of its kind to hit Perth's shores, celebrating Perth's evolving culinary scene. Much more than a food sampling event, Taste of Perth is a new and exciting food experience that features bespoke curated menus and exciting pop up restaurants from the city's most acclaimed chefs.
