Technologies

Laravel, MySQL, jQuery, Bootstrap

Backend

Template : my suggestion we can buy a template for admin.

Login and Registration

Facebook, Twitter, Google, Signup
Register user by facebook, twitter, google or signup with email. In the location we geocode to grab the lat and lang.

Question: How does this "Verified" works? how to verified a user?

Account Management

Update account and add additional information
Question:

Task

Question: What is this "Task Price Type" ?

Task Feedback

Task Application

Time frame : All in all give me a 15 days max time frame, this is for backend only. Let me know your design for frontend.
Budget: 750USD
will ask for 30% downpayment
